

Instruction for the ACE format files based on JENDL/DEU-2020

The ACE files based on JENDL/DEU-2020 were generated by processing JENDL/DEU-2020 using the NJOY-99.364 code with some modifications [1], where In the modification, a new option newfor=2 was added to keep angle-energy distribution form (LAW=67).

Sample input data for the modified NJOY99 are as follows.
